3. Basic Course in Herpetology

Duration: 4 months (July 2025 to October 2025)

4. Basic Course in Butterfly Studies

Duration: 6 months (August 2025 to January 2026)

5. Basic Course in Botany

Duration: 6 months (July 2025 to December 2025)

Qualification required for all courses: 10th Std.

Medium of instructions/Study material: English.

LEADERSHIP COURSE IN BIODIVERSITY CONSERVATION 2025-2026

BNHS CEC is happy to announce the admissions for 'Leadership Course in Biodiversity Conservation' (Lead Bio) for the year 2025-26. The course includes inaugural and wrap-up sessions, field visits in and round Mumbai and field camps to various wildlife habitats across India.

Group photograph of participants of Leadership Course in Biodiversity Conservation during field camp Feb-March 2025 at Keoladeo National Park, Bharatpur, Rajasthan

Highlights of the course:

- An online-hybrid course.
- Duration is 11 months (July 2025 to May 2026).
- Includes study material, field visits/webinars, field camps with subject experts and indoor sessions.
- Project work.
- Certificate from BNHS after successful completion of the course.

Who can enroll?

- Anyone with an interest in learning about biodiversity.
- Basic qualification is Class 10 (any Board).

What are the course deliverables?

The course includes field work and online assignments. Given here are the details of the course deliverables

- **Chapters:** Every month, one chapter written by BNHS experts is sent online to participants. Chapters cover topics like biodiversity, ecology, plants, insects, marine life, amphibians, birds, mammals, conservation issues and sustainable development, environmental laws and environmental impact assessment.
- **Online research:** To learn in greater detail about India's biodiversity and its conservation issues, participants are expected to refer to scientific papers, articles, news, discussions, films based on biodiversity, etc. available online and submit abstracts of the same in the monthly assignment submission document.
- **Field visits and reports:** Half-day field visits will be conducted to various wildlife habitats near Mumbai during the course duration, which are compulsory. A brief report on each field visit must be submitted as a part of the monthly assignment. Participants staying away from Mumbai (in other parts of Maharashtra or in other states) can instead visit a similar habitat near their location, on their own and submit the respective report in monthly assignment.
- **Field camps, indoor sessions and reports:** In the course duration, one inaugural session, one wrap-up session and two field camps will be organized. Field camps are conducted in various habitats across India. Participants are required to attend these field camps and the inaugural session. A camp/session report must be submitted after each camp in the monthly assignment.
- **Project Work:** Project Area Reports are mandatory throughout the course duration. This is an integral part of the course and involves submitting a project report every month. Every project will focus on a theme and the report will be based on the relevant observations/study in one's selected locality. The final project report and the presentation at the end of the year will be a compilation of the monthly reports and a practical action plan for one's locality.

Course Fee*: Rs. 13,150/- (BNHS Member)

Rs. 14,150/- (Others)

(Please read the general rules in the brochure before doing the fees transfer)

*Course fee includes: Course study material, BNHS expertise

The field camp fees & other services are charged separately.

Last date for registration is 15th May 2025 (Limited seats available).

BASIC COURSE IN ORNITHOLOGY, 2025–2026

BNHS CEC is happy to announce the admissions for Basic Course in Ornithology (BCO) for the year 2025-2026. The course includes inaugural and wrap-up sessions, field visits in and around Mumbai and field camps to various bird habitats across India.

Group photograph of participants of Basic Course in Ornithology during field camp, Chambal Gharial Sanctuary 2025

Highlights of the course:

- An online-cum-field (hybrid) course.
- Duration - 11 months (August 2025 to June 2026).
- Study material cover basics of ornithology (in India).
- Project work.
- Field camps, Indoor sessions and field visits/webinars.
- Certificate from BNHS after successful completion of the course.

Who can enroll?

- Anyone with an interest in birds.
- Basic qualification is Class 10 (any Board).

What are the course contents?

The course includes extensive notes, field visits with experts and online assignments. Details of the course contents is as follows:

- **Chapters:** Every month one chapter, written by BNHS experts, is emailed to the participants. Chapters cover various topics such as introduction to birds, their evolution, morphology, anatomy, physiology, food and feeding habits, history of Indian ornithology and bird conservation.
- **Field visits and reports:** Half-day field visits will be conducted to various wildlife habitats near Mumbai during the course duration, which are compulsory. A brief report on each field visit must be submitted as part of the monthly assignment submission document. Participants staying away from Mumbai (in other parts of Maharashtra or in other states) can instead visit a similar habitat near their location, on their own, and submit their respective report in the monthly assignments.
- **Field camps, indoor sessions and reports:** One inaugural session, one wrap-up session and two field camps will be organized. Field camps are conducted at various biodiversity habitats across India. Participants are required to attend both the field camps and the inaugural session. After each camp/session, a report must be submitted as part of the monthly assignment submission document.
- **Project work:** Project Area Reports are mandatory throughout the course duration. This is an integral part of the course and involves submitting a project report every month. Every project will focus on a theme and the report will be based on the relevant observations/study in one's selected locality. The final project report and the presentation at the end of the year will be a compilation of the monthly reports and a practical action plan for one's locality.

Course Fee*: Rs. 13,150/- (BNHS Member)

Rs. 14,150/- (Others)

(Please read the general rules in the brochure before doing the fees transfer)

*Course fee includes: Course study material, BNHS expertise

The field camp fees & other services are charged separately.

Last date for registration is 15th May 2025 (Limited seats available).
